## *1. Background*

Advancing Kosovo Together - Local Solutions (AKT - LS) is a three-year project that aims to increase constructive inter-ethnic cooperation and interaction, primarily between the majority Kosovo Albanian community and non-majority communities, which is vital to the security and stability of the Balkans. The AKT – LS is part of the USAID Forward, the new USAID strategy of development aid delivery, where involvement of local know-how and expertise is essential for maximizing aid efficiency.

## *2. AKT LS Introduction*

AKT Program (also AKT – LS) is implemented in 16 municipalities with considerable presence of non-majority communities. In essence, all three interventions are designed to contribute to expedited inclusion of non-majority communities in the institutional and political life in Kosovo and increasing the exchanges between majority and minority communities across all spheres of life. Improvement of community initiatives and service delivery systems, coupled by increased ability to deliver quality services on the part of local governments and the efficient advocating of community needs and priorities, are encompassed in the project as different dimensions of intervention. These dimensions are expected to lead to improvement of both horizontal linkages across municipalities and vertical linkages with line ministries, through which lives of communities will be improved.

Employment and economic development are also envisaged by the project as key intervention measures aimed at contributing to the overall inclusion of the economies in the 16 beneficiary municipalities. Provision of opportunities for savvy entrepreneurially predisposed individuals and labor force development measures are the two main tools to be used for promoting employment and self-employment in the targeted communities.

In addition, the program will offer assistance to local municipalities to provide services in the most efficient manner, using transparent processes, which resulted in the setting of many standards across all municipalities, such as the creation of annual work plans, Service Improvement Action Plans (SIAPs) and citizen engagement plans. Such assistance was particularly helpful for the newly created municipalities, which did not typically have experienced leadership. This assistance will help target municipalities to continue instituting practical and concrete initiatives that will strengthen the legitimacy of Kosovo's local government system and improve service delivery in the targeted municipalities.

This RFA supports AKT LS Objective 1: *Improve autonomous, horizontal communication between: (a) Kosovo Albanian and non-majority communities; and (b) the GoK and non-majority communities.*

### **3. Grant Purpose**

**Small Scale Inter Ethnic Cultural and Sport Activities:** The AKT LS is inviting Locally Registered NGO's to submit applications for organizing small scale cultural and/or sport events not to exceed € 5,000 in value. Up to four grants will be awarded. Small cultural projects are expected to increase inter-ethnic social engagement through cooperation in the areas of cultural and sport development. Cooperation between organizations, cultural and sport activists should promote universal cultural values, introduce the ethnic groups with cultural diversity presented in Kosovo, and facilitate genuine interethnic cooperation.

Indicative activities are listed below but not limited to:

- Photo or video camps for multi-ethnic youth followed by travelling public exhibits showcasing the work created by participants
- Traditional fairs involving various ethnic groups in Kosovo
- Inter-ethnic school trips to cultural sites or events
- Multi-ethnic music festival / contemporary music / traditional music festivals
- Organizing sport camps with children / youth of different ethnic groups
- Organizing multiethnic sport competitions / trainings for youth and children

AKT LS under Component 1 aims at fostering positive and constructive inter-ethnic cooperation between the Kosovo non-majority and Kosovo majority communities in all 16 targeted municipalities listed in section 7a.

An organization may apply for grants in any or all of the thematic areas, but AKT LS will not make more than one award to a single applicant under this RFA.

The maximum amount AKT LS expects to award any single grant applicant is € 5,000.

The proposed duration of the projects should not exceed 6 months.

#### **Grant Criteria for application**

To be minimally eligible for funding, the organizations must comply with the following conditions:

- Civil society organizations receiving grants under this RFA must be registered under the Department for Registration and Liaison with NGOs under the Ministry of Public Administration of Kosovo. Applicants should therefore: 1) have completed registration with the Department for Registration and Liaison with NGOs; 2) be in the process of registration and willing to complete the process prior to receiving any funds; or 3) be willing to start and complete the process of registration prior to receiving any funds.
- The proposal is in line with the overarching AKT LS objective(s) listed in section 2 and the specific grant objective(s) and program priorities outlined in section 3 and 7.a.

Eligible organizations could include, for example, foundations, associations, non-governmental organizations, community based organizations/groups and/or organizations grouped together in an application as a formal or informal consortium. Applicants must be able to provide evidence of programmatic, technical and managerial capacity to carry out intended activities, as well as past achievement of successful results in the above mentioned areas.

A partnership in the form of a consortium may provide an effective mechanism to rapidly scale-up, increasing the role of non-majority communities as active stakeholders in society. Applicants are encouraged to undertake joint applications or other group arrangements to accommodate participation of new partners, improve geographic coverage, and improve the potential for success through capacity building partnerships. In the case where an application is submitted by a consortium, at least one partner must meet the above eligibility requirements and the lead partner in the consortium should be clearly identified.

#### ***Eligible Size of the Grant***

Size of the total amount available under this RFA (financing round) is € 20,000. Funding for an individual grant under this RFA is expected to be € 5,000, but AKT-LS reserves the right to increase the per grant award amount, as required. The maximum period of project duration is 6 months. The budget must be prepared in Euros and be clearly based on activities described in the application.

## **4. Technical Application (Project Application)**

This section of the RFA describes the parameters for preparing a project application, budget and narrative; the process of application, USAID/AKT LS' evaluation of received applications, and terms and conditions that will apply to the awarded grants.

### ***Budget Template***

The Budget Form is an Excel table with clear division of sections. Please refer to Budget Guidelines for details.

The Budget Form, when properly completed, reviewed and approved serves as mutual agreed upon roadmap for grant financial management. This document should identify all grant implementation costs. The identified costs should be accurately based on the accurate market prices. These costs should be realistic and should not be in disproportion with the existing market costs.

The Budget Form is presented in Attachment 2. All line items must be represented by narrative in line with Budget Guidelines describing details of purpose of that specific line for available cost to be used for. Upon requirement, applicant should be able to provide clear, accurate and concise justification for each line item proposed.

While cost share is not required under this RFA, projects with higher level of cost share by other donors or the organization itself will be prioritized. We understand many organizations may not have their own resources to provide, but if resources are available for an organization to do so, as well as volunteer time, it is welcome. Volunteer work can be accounted for as cost-share. The total application cost should be the sum of USAID/AKT LS funding required plus cost-share value. The cost incurred during preparation of application will not be considered as cost-share.

### ***Currency of Cost Data***

All cost data must be presented in EUROS (€) only.

## ***6. Applicants' financial and accounting system***

Before any agreement is signed, AKT LS will assess the accuracy and adequacy of the financial and accounting system of the applicants in order to ensure accountability and capacity to handle the available funding.

## ***7. Evaluation Criteria***

During this course the Selection Committee will employ ***eligibility criteria*** to determine if the application fits into the scope of the program and is eligible for further detailed analysis and evaluation and this will include:

- Civil society organizations must be registered under the Department for Registration and Liaison with NGOs under the Ministry of Public Administration of Kosovo, or be in the process of registration and be willing to

complete the process prior to receiving any funds, or if not already in process be willing to start and complete registration prior to receiving the funds.

- The proposal is in line with the USAID/AKT LS program and RFA objectives

If an application scores negatively in one of the eligibility criteria, the application will automatically be disqualified and not considered for the next round of evaluation.

If the eligibility criteria are passed, then the following **evaluation criteria** will be considered to ensure AKT LS awards grants to the best evaluated application:

### **7.a Focus and Priorities for Evaluation and Scoring**

#### ***Geographic focus***

The focus of this RFA is on activities and initiatives in AKT LS target municipalities: Gracanica/Gracanice, Klokot/Klokot, Novo Bordo/Novoberde, Partes/Partesh, Ranilug/Ranillug, Sterpce/Shterpce, Gjilan/Gnjilane, Istog/Istok, Kline/Klina, Obiliq/Obilic, Peje/Pec, Vushtrri/Vucitrn, North Mitrovica, Leposavic/q, Zubin, Potok/Zvecan/Zveqan.

#### ***Creation of linkages***

Projects that promote networking, links and partnership within non-majority communities to help decrease isolation and to improve the ability of these communities to address the challenges they face may be favorably received. Similarly, this applies to the projects that propose innovative ways to capitalize on opportunities for networking with non-majority and majority communities and with various civil society organizations such as associations, informal groups as well as NGOs and actions that engage marginalized populations such as youth, women and isolated non-majorities.

Networking should not be pursued as an end in and of itself, but rather as a means of making progress towards the overall program objectives and goal. Similarly, partnerships should not be forced or artificial, rather encouraged and proposed where they exist for mutual benefit.

#### ***Cross-cutting issues: inclusion of youth, women and traditionally marginalized groups***

One of the thematic areas for this RFA is focused on women and another on youth. Project proposals in any thematic area that involve youth or address youth issues will be positively considered, as will projects that seek to engage women actively as partners and beneficiaries. The inclusion of people with disabilities is also actively encouraged.

***Applications do not create conflict in the community or between communities***

AKT LS is aware that certain applications if funded can create potential for conflict in the community or between communities. The Selection Committee will closely evaluate and analyze each application and determine potentials for conflict creation. If determined so, and if application is not subject for modification and improvement, AKT LS will not take in consideration such application. AKT LS considers that all funding and support provided should build bridges in community or between communities instead.

***Past performance of the applicants***

Past performance with other donors will be taken in consideration when evaluating the proposals. Organizations with good reputation in the past will be received more favorably. Poor performance or misuse of funds under other donor projects will be scored negatively. All applications to be considered for funding will be verified by AKT LS.

**Evaluation Method and Criteria**

All applications clearly responding to the focus of this RFA will be evaluated on a competitive basis (scoring system) in accordance with the criteria presented below conducted by AKT LS and independent experts from other USAID programs. These criteria were developed to address the particular goals of the Advancing Kosovo Together/Local Solution. The number of points assigned indicates the relative importance of each factor.
